DINAR DAVIS

WEB DEVELOPER

510.387.5630 | Oakland, CA | dinardavis@gmail.com
Portfolio: dinardavis.com | github.com/dinardavis | linkedin.com/in/dinardavis

CAREER SNAPSHOT

Motivated web developer with 2+ years of freelance experience brings a strategic mindset to programming and design, with skills in JavaScript, React, WordPress, HTML, and CSS. Leverages strong project management, problem-solving, and client communication abilities to deliver responsive digital solutions, optimizing functionality and user experience.

<u>Core Competencies</u>: Front-End & Full-Stack Web Development – Project Management – Client Communication
Problem-Solving & Debugging – Agile Development – Cross-Functional Collaboration – Responsive UX/UI Design
 Software Development Life Cycle (SDLC) – Technical Documentation – Version Control

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3, Sass, jQuery
Frameworks: React.js, Node.js, Next.js, Express, Gatsby, Material UI
Tools: Git, Figma, Adobe Illustrator, Adobe Photoshop, Netlify, Heroku, Auth0
Platforms: MongoDB – Atlas, Strapi, GraphQL, Cloudinary, EmailJS, WordPress

INDEPENDENT DEVELOPMENT PROJECTS

TRAVEL DASHBOARD APPLICATION

<u>Demo</u>   <u>Github</u>
- Built full-stack dashboard for planning dream travel destination, featuring user registration, login authorization, and API integration with Fetch & Axios for dynamic content fetching.
- Managed MongoDB database for storing and organizing unique user data.

<u>Key Technologies</u>: React.js, MongoDB, Atlas, Axios, Material UI, Asynchronous Calling & Error Handling

GATSBY STATIC SPA

<u>Demo</u>   <u>Github</u>
- Developed a static single-page application (SPA) with Gatsby, React.js, and JavaScript, utilizing server-side rendering.
- Designed and implemented custom logos, layouts, and site designs, enhancing brand identity and recognition.

<u>Key Technologies</u>: Gatsby, React.js, JavaScript, Fetch API

E-COMMERCE RETAIL WEBSITE

<u>Demo</u>   <u>Github</u>
- Created an e-commerce site with React, Next.js, and Node.js, integrating headless CMS, Google authentication, and payment gateway via Stripe.
- Implemented API integration with Strapi and GraphQL for seamless product management and checkout functionality.

<u>Key Technologies</u>: React.js, Next.js, Node.js, Cloudinary, Auth0, Strapi, GraphQL, Stripe

RELATED PROFESSIONAL EXPERIENCE

FREELANCE WEB DEVELOPMENT | Remote

DEVELOPER, UX/UI DESIGNER   **Jan 2023 – Present**
- Redesigned corporate branding and relaunch of online, cross-browser compatible websites, optimized for desktop and mobile platforms, focused on increasing user engagement and improved SEO performance.
- Integrated third-party APIs and CMS tools, streamlining content management and improving site functionality.
- Maintained and updated websites regularly, troubleshooting bugs, and implementing new features to ensure up-to-date content and performance.

Additional work experience includes: Project management and operations at The Ritz Carlton, Wynn Las Vegas, and various nonprofits, optimizing processes and leading cross-functional teams; television production analyst at 21st Century Studios overseeing 20M+ production budgets; advertising copywriter for brands such as Disney, GM, Pfizer, and P&G, crafting targeted content and marketing campaigns.
